WHAT IS THE BIGGEST CHANGE IN THE SECURITY INDUSTRY SINCE 2010?

By Larry Anderson
Editor, SecurityInformed.com & SourceSecurity.com
As seen on SecurityInformed.com

Ten years is a long time, but it seems to pass in an instant in the world of security. In terms of technology, 2010 is ages ago. Changes in the market have been transformative during that decade, and we called on our Expert Panel Roundtable to highlight some of those changes. We asked this week's panelists: What was the biggest change in the security industry in the 2010-2019 decade?

Scott Lindley, General Manager of Farpointe Data, Inc., one of the thirteen panelists, highlights the evolution of credential technology.

Delta6.2 Mullion-Mount Contactless Smartcard Reader & Keypad

PRODUCT SPOTLIGHT: DELTA6.2 MULLION-MOUNT CONTACTLESS SMARTCARD READER & KEYPAD

Delta6.2 is a member of Farpointe's Delta® line of 13.56-MHz contactless smartcard readers and credentials. Based upon NXP Semiconductor's MIFARE® technology, the Delta6.2 is an ideal choice for security-sensitive applications such as hospitals, universities, port facilities and more!

Using 2-factor authentication, this combination reader/keypad can also help defend against card cloning, while its sleek, slim-factor design allows easy installation to metal door and window frames.

- Supports card and/or PIN
- Backlit solid state keypad
- Installs on metal door frames
- Optimized for DESFire EV1 and EV2 credentials
- Farpointe's lifetime warranty

SPOTTED ON THE STREET

CONEKT® CSR-35 Mobile-Ready Readers support both mobile access credentials and traditional physical credentials, allowing access control system manufacturers and integrators to offer customers a comprehensive cloud-based mobile identification solution.

This CSR-35 reader was found at Disco Hi-Tec America, Inc. in San Jose, CA. Disco specializes in silicon wafer grinding, polishing and slicing. The BLE/contactless smartcard reader, installed by Creative Security, is tied to an access control system from our friends at Keri Systems.

TR2020-02

THE ONLY THING YOU NEED TO IMPLEMENT YOUR NEW **MOBILE ACCESS CONTROL** SOLUTION

Just your smartphone's phone number.

No portals. No private information. No unsecured credentials. No jerry-rigged implementation. No hassles.

Made by Farpointe Data, the CONEKT® solution—potted, mobile-ready RFID readers and companion credentials—is only available through your favorite integrator.
