AS ACCESS CONTROL CREDENTIALS EVOLVE, SO DO ITS USERS

By Karyn Hodgson
Associate Editor, SDM Magazine

As seen in [SDM Magazine](#)

That is an access control credential? That used to be a simple question to answer, but today, not so much. Modern credentials can be anything and everything from an old magnetic stripe card to a smart card to a phone, wearable or biometric.

Top 10 Attributes Access Control Systems Providers Should Look for in an Identification Partner

Access control systems manufacturers have a lot to consider when evaluating RFID providers. Beyond offering quality readers and credentials at competitive prices, do they have the breadth of product, innovative solutions, timely service, and personal support that can help contribute to business growth? Those are the marks of a true partner.
