News for the Access Control Professional

## HIGHLIGHTS FROM ISC WEST 2024

### Strong interest shown in Farpointe's mobile and long-range RFID solutions

By all accounts, ISC West 2024 was a hit. According to show organizers, ISC West welcomed more than 29,000 security industry professionals, increased the show floor by 20,000 square feet, and added 100 more exhibiting brands. As an exhibitor, Farpointe experienced the magnitude of the show first-hand, with steady booth traffic, a well-attended networking event, and numerous productive connections made with partners, integrators, and consultants.

If 2024 is any indication, we look forward to the possibilities ISC West 2025 will bring! Take a look below at some of what we featured during this year's show.

### Farpointe Hosts the Access Control Industry

Farpointe held its 11th annual Friends of Farpointe—an eagerly anticipated event during ISC West—on Thursday, April 11. Held on the Farpointe booth, this annual networking event is Farpointe's opportunity to thank its partners and help others around the electronic access control industry make valuable connections.

Guests had the opportunity to relax in the middle of a busy show, have a cool beverage, network with industry experts, catch up with old friends, and make new ones. If you regularly attend ISC West, but missed Friends of Farpointe, we hope to see you in 2025!

PRODUCTS SHOWCASED AT THE SHOW

### CONEKT® Mobile Solutions

- Reads both mobile and physical credentials
- 2-in-1 million/single-gang reader, plus keypad readers
- Contactless smartcard and proximity models
- Wiegand or OSDP interfaces
- CloudCONEKT™ API and SDK

[LEARN MORE](#)

### Ranger® Long-Range Solutions

- Exceptionally long read range up to 200 feet (61 m)
- Ideal for parking, gates, garage doors, and more
- Supports industry standard access control interfaces
- 433-MHz frequency can be installed around the globe

[LEARN MORE](#)

### OEM Solutions

- Ultra low-power mobile-ready OEM module
- BLE, NFC, and contactless smartcard (DESFire EV3) support
- Battery powered for standalone applications
- Ideal for locksets, vending, mobile readers, and more

EXAMPLE RFID ACCESS CONTROL APPLICATIONS

### Transportation Solutions

With their size and scope, it's clear that transportation hubs demand advanced access control solutions meeting a wide variety of security requirements. As such, it's no surprise these busy hubs are considering long-range identification and multi-factor mobile access as key components within their integrated security operations.

### Multi-Housing Solutions

Multi-housing is one of the most talked about opportunities in electronic access control. And justifiably so. Common among multi-housing complexes is the need to access gates, units, individual garages, common areas and amenities throughout the development—offering access control professionals a thriving vertical to serve.

### Commercial Solutions

Recent industry reports indicate that there is a lot of 125-kHz proximity technology deployed—and still being deployed—in electronic access control applications. Given the rise in discussions around cybersecurity threats, what accounts for proximity's continued use?
