Product Spotlight: OSDP Verified Readers

Farpointe's mobile, contactless smartcard and proximity readers have earned the Security Industry Association's (SIA's) OSDP Verified mark.

OSDP—an IEC global standard—brings enhanced security, interoperability, and reliability to modern access control systems.

According to SIA, the OSDP Verified mark boosts confidence in devices that have been tested and verified to meet stringent SIA OSDP standards.

Download a copy of our **OSDP Guide** for details on why integrators should be implementing OSDP now.
